HOUSTON, TEXAS 77099

MEMORANDUM

DATE: November 10, 1992

SUBJECT: Notice of Intent to Dispose of Samples

FROM:   
Diana G. Ayers, Chief, Houston Branch; 6E-H

TO: Ed Sierra, Chief,  
Site Assessment Section  
Superfund Management Branch; 6H-MA

The Houston Laboratory is required to dispose of all hazardous wastes we generate in a manner consistent with RCRA regulations. This includes all samples received for analysis provided we find them to contain contaminants which classify them as RCRA hazardous wastes. In addition, samples found to contain PCBs are disposed of in accordance with TSCA regulations.

I have included this memorandum in the final analytical report to serve as notice to the program that we have completed all analysis. If we have any of the original sample remaining after analysis is complete we will dispose of it within 90 days. Please note that even though original sample may be left over, it does not mean that a reanalysis of the sample may be requested since the sample has most likely exceeded its holding time and any subsequent analysis may not be valid.

If you have a need to hold these samples in custody longer than 90 days, please sign below and return this memorandum to me within the next 30 days. Also, state briefly your need to hold these samples in custody.

Thank you for your cooperation in this request.
